Information regarding Saajos Oy's business activities during the COVID-19 outbreak

Our operations and business actions will continue so far as usual. Saajos Oy will act in compliance with the instructions given by the Finnish Health Organisation and the Government of Finland. Should these actions affect our business or operations in any way, we will inform our stakeholders at once.

Currently, the closing of borders does not affect cargo transport and thus will not have an effect on Saajos Oy's operations or businesses. We have evaluated our chain of logistics regarding the European raw materials and other components which we order frequently, and we are also prepared to manufacture these components ourselves if the operations of our suppliers are disrupted by the virus.

We will inform our stakeholders immediately, if we see any changes taking place in our operations or businesses due to the virus outbreak.

Best regards,

A handwritten signature in blue ink, appearing to read "Kalle Saajos", written over a horizontal line.

Kalle Saajos
CEO
Saajos Oy
